

A Donaluson Company

A WORLD LEADER IN FUME EXTRACTION TECHNOLOGY

DentalPRO Universal

Last Updated on 02.02.202

Stand-alone dust extraction system for CAD/CAM dental milling machines.

BOFA's DentalPRO Universal stand-alone dust extraction system filters small particulates generated during the CAD/ CAM milling of dental implants. The unit has a high-efficiency two-stage filtration process which helps the workplace maintain a clean working environment.

The unit's high vacuum pump is brushless and designed for continuous running for long periods of time before requiring servicing. The bag filter has a large 18-litre capacity and the HEPA filter is very high efficiency.

Technology

HEPA filter

Multi voltage sensing (MVS) unit

SureCHECK quality standard

Key features of the DentalPRO Universal

Digital speed control - for variable airflow rates Standard

High vacuum pump for effective extraction from source Standard

Filters with long life and low replacement cost Standard

HEPA filtration Standard

Quiet in operation Standard

24V remote stop / start interface + override Optional Auto sensing voltage (100-230V) for global use Standard

Brushless motor (for longer periods of time before servicing) Standard

High efficiency 5 layer large capacity easy change filter Standard

Filter full indicator Standard

Small footprint Standard

Filter signal Optional

Where applicable, the carbon used in BOFA units is capable of removing a wide range of VOCs, however it is the responsibility of the user to ensure the carbon is suitable for their application. For specific applications, please contact us for details.

Important Notice: Many factors beyond the control of BOFA can affect the use and performance of BOFA products in a particular application, including the conditions under which the product is used. Since these factors are uniquely within the user's knowledge and control, it is essential the user evaluate the products to determine whether the product is fit for the particular purpose and suitable for the user's application. All products, product specifications, availability and data are subject to change without notice, and may vary by region or country.
