

A WORLD LEADER IN FUME  
EXTRACTION TECHNOLOGY

# DentalPRO Xtract 300

Last Updated on 02.02.2022

Dust and fume extraction cabinet for multiple hand-finishing dental laboratory applications.

BOFA's DentalPRO Xtract 300 dust and fume extraction dental cabinet is designed for the removal of dust and fumes generated during dental hand finishing or monomer mixing applications.

This unit is ideally suited to manual benchtop applications and provides technicians with the flexibility to work without restriction in the knowledge that dust particles and fumes are being removed to maintain a safe working environment.

This compact unit has scalable and flexible options with different accessories, lighting and internal storage.

Compatible with the DentalPRO 400 and DentalPRO Mono extraction systems.
