

A small fume cabinet for a wide range of applications.

The FumeCAB 250 is a versatile fume cabinet suitable for a wide range of applications. It is designed to work with our V 250 extraction system.

TECHNICAL SPECIFICATION

1. Company branding

2. Plug inlet

3. Air outlet - 3.0" (75 mm)

TECHNICAL DATA

Dimensions (H x W x D)		Opening dimensions (H x W)		Recommended face velocity		Weight	
in	mm	in	mm	f/min	m/s	lbs	kg
11.4 x 15.8 x 11.8	290 x 400 x 300	10.4 x 15.8	256 x 400	118	0.5	7	3

AIRFLOW

PART NUMBERS - SYSTEM

Description	Part number
FumeCAB 250 Single 3.0" (75 mm) hose kit 1.5 m	1UA1020127
FumeCAB 250 with V 250 Powder-coated, 230 V	1U30351595-1287

CUSTOMIZATIONS

Options V 250 extraction system Cabinet construction Powder-coated mild steel (RAL9016)	Power cables Type B Type E Type G

* The FumeCAB 250 is designed to work with our V 250 extraction system. For detailed specification on the extraction system, please refer to the V 250 datasheet.

Datasheet correct at time of publishing. Where applicable, the carbon used in Donaldson BOFA systems is capable of removing a wide range of VOCs, however it is the responsibility of the user to ensure the carbon is suitable for their application. For specific applications, please contact us for details.

Important Notice

Many factors beyond the control of Donaldson can affect the use and performance of Donaldson products in a particular application, including the conditions under which the product is used. Since these factors are uniquely within the user's knowledge and control, it is essential the user evaluate the products to determine whether the product is fit for the particular purpose and suitable for the user's application. All products, product specifications, availability and data are subject to change without notice, and may vary by region or country.

Approvals: REACH and RoHS. See individual product technical data for specific accreditations.
