

A versatile fume cabinet for a variety of applications.

The FumeCAB 600 is a versatile fume cabinet suitable for a wide range of applications. With a larger working area and higher airflow than the FumeCAB 250, it is designed to be used with our V 600 extraction system.

TECHNICAL SPECIFICATION

1. Company branding

2. Plug inlet

3. Air outlets - 3.0" (75 mm)

TECHNICAL DATA

Dimensions (H x W x D)		Opening dimensions (H x W)		Recommended face velocity		Weight	
in	mm	in	mm	f/min	m/s	lbs	kg
14.0 x 24.0 x 16.5	355 x 610 x 420	12.4 x 21.3	315 x 540	150	0.5	11	5

Type E

Type G

PART NUMBERS - SYSTEM

Description	Part number
FumeCAB 600 Two 3.0" (75 mm) hose kits 2 m	1UA1020128
FumeCAB 600 with V 600 Powder-coated, 100-230 V	1U30766117-1238-2-FUME

* The FumeCAB 600 is designed to work with our V 600 extraction system. For detailed specification on the extraction system, please refer to the V 600 datasheet.

Datasheet correct at time of publishing. Where applicable, the carbon used in Donaldson BOFA systems is capable of removing a wide range of VOCs, however it is the responsibility of the user to ensure the carbon is suitable for their application. For specific applications, please contact us for details.

Important Notice

Many factors beyond the control of Donaldson can affect the use and performance of Donaldson products in a particular application, including the conditions under which the product is used. Since these factors are uniquely within the user's knowledge and control, it is essential the user evaluate the products to determine whether the product is fit for the particular purpose and suitable for the user's application. All products, product specifications, availability and data are subject to change without notice, and may vary by region or country.

Approvals: REACH and RoHS. See individual product technical data for specific accreditations.
