

A multi-purpose mobile dust and fume extraction system.

The Mobile FumeKART is a versatile and portable dust and fume extraction system suitable for a variety of applications. Designed to filter dust particles, weld fumes, vapors, and other pollutants from the work environment, the FumeKART is easy to operate and maintain and provides the additional benefit of being fully portable.

FEATURES

- Low noise level
- Fully portable

Approvals: UKCA and CE

CUSTOMIZATIONS

Options

Power cables
VOC sensor

Cabinet construction

Powder-coated mild steel (RAL9016)

Power cables

Type B
Type E
Type G

*Multiple hood options available for connection to the extraction system arm.

**Noise level: At typical operating speed.

Datasheet correct at time of publishing. Where applicable, the carbon used in Donaldson BOFA systems is capable of removing a wide range of VOCs, however it is the responsibility of the user to ensure the carbon is suitable for their application. For specific applications, please contact us for details.

Important Notice

Many factors beyond the control of Donaldson can affect the use and performance of Donaldson products in a particular application, including the conditions under which the product is used. Since these factors are uniquely within the user's knowledge and control, it is essential the user evaluate the products to determine whether the product is fit for the particular purpose and suitable for the user's application.
